

July 2016

**CreativeDays Stuttgart - Design.Arts.Architecture
Lectures | India Smart Cities – solutions for cities and architecture
*Poonamdesigners Studio at InteriorPark.***

The interdisciplinary poonamdesigners Studio launched in July 2016 CreativeDays Stuttgart, an international platform in Stuttgart on Design, Arts, Architecture. The proximity to the Indian Summer and Indian Film Festival is the bridge to the platform.

Full House also with international guests at InteriorPark, who listened carefully to the deeply interesting lectures by Aniket Bhagwat, architect and partner at Prabhakar Bhagwat Landscape Architects, and Kai Bierich, architect and partner at Wulf Architekten. The installation related to this theme by the designer Poonam Choudhry and rounded the space off.

Welcome words were spoken by Dr.-Ing. Detlef Kron Office Head of urban planning, City Stuttgart, and Mr. VSDL Surendra, Consul, Consulate General of India, Munich. A relaxing atmosphere with delicious samosas, pakoras and cold white wine arose and the conversations of the guests lasted till late in the evening.

Thanks to all our supporters, those who helped and our guests. The events took place during the Indian Summer and the Indian Filmfestival 2016 in Stuttgart, which are under the patronage of the Indian Honorary Consulate for Baden-Württemberg and Rhineland-Palatinate.
